

## Careful Choices – Survey DRAFT KS V6

Like all councils, East Devon District Council faces significant budgetary challenges and going forward will need to make 'careful choices' as it works towards bridging a £2.7 million funding gap over the next 4 years.

Budgets have decreased due to cuts in central government funding. Over the last decade, the council has lost 60p in every £1 of government funding.

These reductions coupled with rising demands on our services, continue to impact everything we do and we no longer receive general funding from central government to support the services we provide.

Careful choices is about achieving a shared understanding of the services which the council has to provide even though the Government is no longer funding them. It is also about protecting as best we can other services which people care most about. The council wants to make these choices by engaging with its communities before final decisions are made.

We've already taken significant steps to deal with the reductions in our finances; compared with 10 years ago, we've reduced the cost of running our quality services by a total of £4.4m. We are also making progress towards bridging the funding gap by:

- actively assessing commercial investment opportunities and ways we can maximise the way we use our assets
- generating more income through services such as green waste collections
- making organisational changes to ensure we are 'fit for purpose'
- going digital to deliver services as cost effectively as possible.

We're confident that together we can make the careful choices needed to balance our budgets for the future.

**What priority do you think the council should give to the following in your community?**

(please select one option per row)

- Supporting the development of good housing and helping provide decent homes for everyone.
- Keeping people healthy and safe.
- Supporting the development of good businesses and the ability of people to access decent, well paid and local jobs.
- Making our facilities and services easier to access.
- Maintaining the quality of East Devon's environment and countryside. Providing and supporting sports and leisure opportunities, including parks and play areas, nature reserves, arts and culture.
- Providing and looking after physical outdoor facilities and services such as beach huts, public toilets, car parks and cemeteries.
- Regenerating towns.
- Helping communities help themselves by providing skills, signposting and advice.
- Supporting vulnerable people.
- Taking action on climate change.
- Collecting fees and charges that are owed to us, including council tax and business rates.
- Local democracy, giving people a say and letting you know what we're doing.
