This paper provides the Audit and Governance Committee with a report on progress in delivering our responsibilities as your external auditors.

The paper also includes:

- a summary of emerging national issues and developments that may be relevant to you as a local authority; and
- includes a number of challenge questions in respect of these emerging issues which the Committee may wish to consider (these are a tool to use, if helpful, rather than formal questions requiring responses for audit purposes)

Members of the Audit and Governance Committee can find further useful material on our website, where we have a section dedicated to our work in the public sector. Here you can download copies of our publications. Click on the Grant Thornton logo to be directed to the website [www.grant-thornton.co.uk](http://www.grant-thornton.co.uk).

If you would like further information on any items in this briefing, or would like to register with Grant Thornton to receive regular email updates on issues that are of interest to you, please contact either your Engagement Lead or Engagement Manager.

# Progress at March 2019

## Financial Statements Audit

We have undertaken planning for the 2018/19 financial statements audit and have issued a detailed audit plan, setting out our proposed approach to the audit of the Council's 2018/19 financial statements.

We commenced our interim audit in February 2019. Our interim fieldwork visit included:

- Updated review of the Council's control environment
- Understanding of financial systems
- Review of Internal Audit reports on core financial systems
- Early substantive testing

The statutory deadline for the issue of the 2018/19 opinion is 31 July 2019. We will discuss our plan and timetable with officers.

The final accounts audit is due to begin on the 19 June with findings reported to you in the Audit Findings Report by the deadline of July 2019.

## Value for Money

The scope of our work is set out in the guidance issued by the National Audit Office. The Code requires auditors to satisfy themselves that; "the Council has made proper arrangements for securing economy, efficiency and effectiveness in its use of resources".

The guidance confirmed the overall criterion as: "in all significant respects, the audited body had proper arrangements to ensure it took properly informed decisions and deployed resources to achieve planned and sustainable outcomes for taxpayers and local people".

The three sub criteria for assessment to be able to give a conclusion overall are:

- Informed decision making
- Sustainable resource deployment
- Working with partners and other third parties

Details of our initial risk assessment to determine our approach are included in our Audit Plan.

We will report our work in the Audit Findings Report and give our Value For Money Conclusion by the deadline in July 2019.

## Other areas

### Meetings

Meetings are planned on a regular basis to discuss the Council's strategic priorities and plans.

We continue to be in discussions with finance staff regarding emerging developments and to ensure the audit process is smooth and effective.

### Grant Certification

We were engaged to complete certification assurance work on the Council's pooling capital receipts return. This work is nearing completion at an agreed fee of £3,000.

### Events

We provide a range of workshops, along with network events for members and publications to support the Council. Your finance team receive invitations to these events.

### Insights

Further details of the publications that may be of interest to the Council are set out in our Sector Update section of this report.

# Results of Interim Audit Work

The findings of our interim audit work, and the impact of our findings on the accounts audit approach, are summarised in the table below. We will be on site at the Council in April to complete our interim procedures.

	<b>Work performed</b>	<b>Conclusions and recommendations</b>
<b>Internal audit</b>	We have completed a high level review of internal audit's reports issued to date.	Our review of internal audit's work has not identified any weaknesses which impact on our audit approach.
<b>Entity level controls</b>	We have obtained an understanding of the overall control environment relevant to the preparation of the financial statements including: <ul style="list-style-type: none"><li>• Communication and enforcement of integrity and ethical values</li><li>• Commitment to competence</li><li>• Participation by those charged with governance</li><li>• Management's philosophy and operating style</li><li>• Organisational structure</li><li>• Assignment of authority and responsibility</li></ul>	Our work has identified no material weaknesses which are likely to adversely impact on the Council's financial statements
<b>Review of the Council's IT control environment</b>	The Council's IT system is operated jointly with Exeter City Council and Teignbridge District Council through a jointly controlled company Strata Service Solutions Ltd. Our IT specialists are undertaking a joint review of the IT control environment.	Our work is ongoing in this area.

	<b>Work performed</b>	<b>Conclusions and recommendations</b>
<b>Understanding Significant Business Processes</b>	<p>We have commenced documenting our understanding of significant business processes for key systems.</p> <p>Business process have been documented in respect of:</p> <ul style="list-style-type: none"> <li>Accounts payable</li> <li>Housing Rents</li> <li>Housing Benefits</li> <li>Accounts receivable</li> <li>Payroll</li> <li>Collection Fund</li> <li>Cash</li> </ul>	<p>Our work to date has not identified any issues which we wish to bring to your attention.</p>
<b>Journal entry controls</b>	<p>We have reviewed the Council's journal entry policies and procedures as part of determining our journal entry testing strategy.</p>	<p>Our work in this area is ongoing.</p>
<b>Early substantive testing</b>	<p>We have carried out:</p> <ul style="list-style-type: none"> <li>• Substantive testing of operating expense transactions to month 10.</li> <li>• Substantive testing of employee remuneration to month 10</li> </ul>	<p>We have no issues to report.</p> <p>Audit corroboration currently on-going. Testing for the last two months of the financial year will be carried out at our final audit visit.</p> <p>Substantive testing of other significant balances will undertaken at our next interim visit in April.</p>

# Audit Deliverables

2018/19 Deliverables	Planned Date	Status
<b>Fee Letter</b> Confirming audit fee for 2018/19.	September 2018	Complete
<b>Accounts Audit Plan</b> We are required to issue a detailed accounts audit plan to the Audit Committee setting out our proposed approach in order to give an opinion on the Council's 2018-19 financial statements.	January 2019	Complete
<b>Interim Audit Findings</b> We will report to you the findings from our interim audit and our initial value for money risk assessment within our Progress Report.	March 2019	Complete
<b>Audit Findings Report</b> The Audit Findings Report will be reported to the July Audit Committee.	July 2019	Not yet due
<b>Auditors Report</b> This is the opinion on your financial statement, annual governance statement and value for money conclusion.	July 2019	Not yet due
<b>Annual Audit Letter</b> This letter communicates the key issues arising from our work.	August 2019	Not yet due
<b>Annual Certification Letter</b> This letter reports any matters arising from our certification work..	December 2019	Not yet due

# Sector Update

Councils are tackling a continuing drive to achieve greater efficiency in the delivery of public services, whilst facing the challenges to address rising demand, ongoing budget pressures and social inequality.

Our sector update provides you with an up to date summary of emerging national issues and developments to support you. We cover areas which may have an impact on your organisation, the wider NHS and the public sector as a whole.

Our public sector team at Grant Thornton also undertake research on service and technical issues. We will bring you the latest research publications in this update. We also include areas of potential interest to start conversations within the organisation and with audit committee members, as well as any accounting and regulatory updates.

# Public Sector Audit Appointments – Report on the results of auditors’ work 2017/18

This is the fourth report published by Public Sector Audit Appointments (PSAA) and summarises the results of auditors’ work at 495 principal local government and police bodies for 2017/18. This will be the final report under the statutory functions from the Audit Commission Act 1998 that were delegated to PSAA on a transitional basis.

The report covers the timeliness and quality of financial reporting, auditors’ local value for money work, and the extent to which auditors used their statutory reporting powers.

For 2017/18, the statutory accounts publication deadline came forward by two months to 31 July 2018. This was challenging for bodies and auditors and it is encouraging that 431 (87 per cent) audited bodies received an audit opinion by the new deadline.

The most common reasons for delays in issuing the opinion on the 2017/18 accounts were:

- technical accounting/audit issues;
- various errors identified during the audit;
- insufficient availability of staff at the audited body to support the audit;
- problems with the quality of supporting working papers; and
- draft accounts submitted late for audit.

All the opinions issued to date in relation to bodies’ financial statements are unqualified, as was the case for the 2016/17 accounts. Auditors have made statutory recommendations to three bodies, compared to two such cases in respect of 2016/17, and issued an advisory notice to one body.

The number of qualified conclusions on value for money arrangements looks set to remain relatively constant. It currently stands at 7 per cent (32 councils, 1 fire and rescue authority, 1 police body and 2 other local government bodies) compared to 8 per cent for 2016/17, with a further 30 conclusions for 2017/18 still to be issued.

The most common reasons for auditors issuing qualified VFM conclusions for 2017/18 were:

- the impact of issues identified in the reports of statutory inspectorates, for example Ofsted;
- corporate governance issues;
- financial sustainability concerns; and
- procurement/contract management issues.

All the opinions issued to date in relation to bodies’ financial statements are unqualified, as was the case for the 2016/17 accounts.

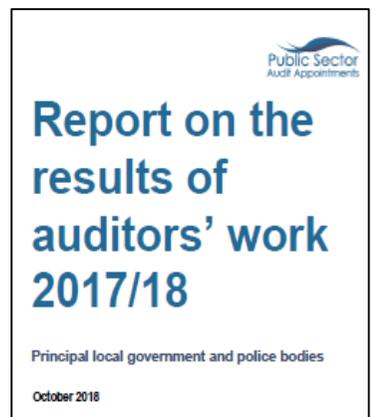

The report is available on the PSAA website:

<https://www.psa.co.uk/audit-quality/reports-on-the-results-of-auditors-work/>

## PSAA Report

### Challenge question:

Has your Authority identified improvements to be made to the 2018/19 financial statements audit and Value for Money Conclusion?

# National Audit Office – Local auditor reporting in England 2018

The report describes the roles and responsibilities of local auditors and relevant national bodies in relation to the local audit framework and summarises the main findings reported by local auditors in 2017-18. It also considers how the quantity and nature of the issues reported have changed since the Comptroller & Auditor General (C&AG) took up his new responsibilities in 2015, and highlights differences between the local government and NHS sectors.

Given increasing financial and demand pressures on local bodies, they need strong arrangements to manage finances and secure value for money. External auditors have a key role in determining whether these arrangements are strong enough. The fact that only three of the bodies (5%) the NAO contacted in connection with this study were able to confirm that they had fully implemented their plans to address the weaknesses reported suggests that while auditors are increasingly raising red flags, some of these are met with inadequate or complacent responses.

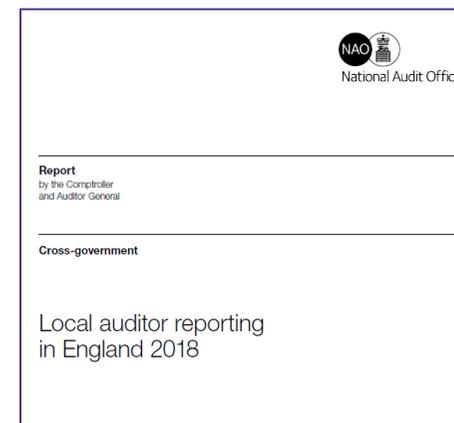

Qualified conclusions on arrangements to secure value for money locally are both unacceptably high and increasing. Auditors qualified their conclusions on arrangements to secure value for money at an increasing number of local public bodies: up from 170 (18%) in 2015-16 to 208 (22%) in 2017-18. As at 17 December 2018, auditors have yet to issue 20 conclusions on arrangements to secure value for money, so this number may increase further for 2017-18.

The proportion of local public bodies whose plans for keeping spending within budget are not fit-for-purpose, or who have significant weaknesses in their governance, is too high. This is a risk to public money and undermines confidence in how well local services are managed. Local bodies need to demonstrate to the wider public that they are managing their organisations effectively, and take local auditor reports seriously. Those charged with governance need to hold their executives to account for taking prompt and effective action. Local public bodies need to do more to strengthen their arrangements and improve their performance.

Local auditors need to exercise the full range of their additional reporting powers, where this is the most effective way of highlighting concerns, especially where they consider that local bodies are not taking sufficient action. Departments need to continue monitoring the level and nature of non-standard reporting, and formalise their processes where informal arrangements are in place. The current situation is serious, with trend lines pointing downwards.

The report is available on the NAO website:

<https://www.nao.org.uk/report/local-auditor-reporting-in-england-2018/>

## NAO Report

### Challenge question:

Has your Authority responded appropriately to any concerns or issues raised in the External Auditor's report for 2017/18?

# National Audit Office – Local authority governance

The report examines whether local governance arrangements provide local taxpayers and Parliament with assurance that local authority spending achieves value for money and that authorities are financially sustainable.

Local government has faced considerable funding and demand challenges since 2010-11. This raises questions as to whether the local government governance system remains effective. As demonstrated by Northamptonshire County Council, poor governance can make the difference between coping and not coping with financial and service pressures. The Department (Ministry of Housing, Communities and Local Government) places great weight on local arrangements in relation to value for money and financial sustainability, with limited engagement expected from government. For this to be effective, the Department needs to know that the governance arrangements that support local decision-making function as intended. In order to mitigate the growing risks to value for money in the sector the Department needs to improve its system-wide oversight, be more transparent in its engagement with the sector, and adopt a stronger leadership role across the governance network

Not only are the risks from poor governance greater in the current context as the stakes are higher, but the process of governance itself is more challenging and complex. Governance arrangements have to be effective in a riskier, more time-pressured and less well-resourced context. For instance, authorities need to:

- maintain tight budgetary control and scrutiny to ensure overall financial sustainability at a time when potentially contentious savings decisions have to be taken and resources for corporate support are more limited; and
- ensure that they have robust risk management arrangements in place when making commercial investments to generate new income, and that oversight and accountability is clear when entering into shared service or outsourced arrangements in order to deliver savings.

Risk profiles have increased in many local authorities as they have reduced spending and sought to generate new income in response to funding and demand pressures. Local authorities have seen a real-terms reduction in spending power (government grant and council tax) of 28.6% between 2010-11 and 2017-18. Demand in key service areas has also increased, including a 15.1% increase in the number of looked after children from 2010-11 to 2017-18. These pressures create risks to authorities' core objectives of remaining financially sustainable and meeting statutory service obligations. Furthermore, to mitigate these fundamental risks, many authorities have pursued strategies such as large-scale transformations or commercial investments that in themselves carry a risk of failure or under-performance.

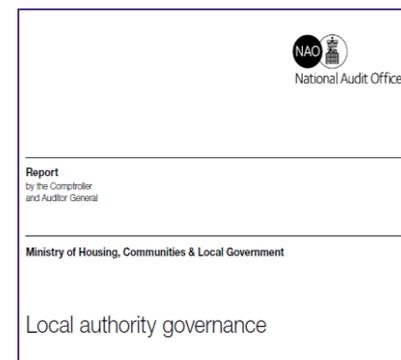

The report is available on the NAO website:

<https://www.nao.org.uk/report/local-authority-governance-2/>

## NAO Report

### Challenge question:

Has your Authority got appropriate governance and risk management arrangements in place to address the risks and challenges identified in the NAO report?

# CIPFA – Financial Resilience Index plans revised

## The Chartered Institute of Public Finance and Accountancy (CIPFA) has refined its plans for a financial resilience index for councils and is poised to rate bodies on a “suite of indicators” following a consultation with the sector.

CIPFA has designed the index to provide reassurance to councils who are financially stable and prompt challenge where it may be needed. To understand the sector’s views, CIPFA invited all interested parties to respond to questions it put forward in the consultation by the 24 August.

CIPFA has also responded to concerns about the initial choice of indicators, updating the selection and will offer authorities an advanced viewing of results.

Plans for a financial resilience index were put forward by CIPFA in the summer. It is being designed to offer the sector some external guidance on their financial position.

CIPFA hailed the “unprecedented level of interest” in the consultation.

Responses were received from 189 parties, including individual local authorities, umbrella groups and auditors. Some respondents called for a more “forward-looking” assessment and raised fears over the possibility of “naming and shaming” councils.

CIPFA chief executive Rob Whiteman said with local government facing “unprecedented financial challenges” and weaknesses in public audit systems, the institute was stepping in to provide a leadership role in the public interest.

“Following the feedback we have received, we have modified and strengthened the tool so it will be even more helpful for local authorities with deteriorating financial positions,” he said.

“The tool will sit alongside CIPFA’s planned Financial Management Code, which aims to support good practice in the planning and execution of sustainable finances.”

CIPFA is now planning to introduce a “reserves depletion time” category as one of the indicators. This shows the length of time a council’s reserves will last if they deplete their reserves at the same rate as over the past three years.

The consultation response document said this new category showed that “generally most councils have either not depleted their reserves or their depletion has been low”.

“The tool will not now provide, as originally envisaged, a composite weighted index but within the suite of indicators it will include a red, amber, green (RAG) alert of specific proximity to insufficient reserve given recent trajectories,” it said.

It also highlighted the broad support from the sector for the creation of the index. “There was little dissent over the fact that CIPFA is doing the right thing in drawing attention to a matter of high national concern,” it said.

“Most respondents agreed to the need for transparency – but a sizable number had concerns over the possibly negative impacts of adverse indicators and many councils wanted to see their results prior to publication.”

As such, CIPFA plans to provide resilience measurements first to the local authorities and their auditors via the section 151 officer rather than publishing openly.

## CIPFA Consultation

### Challenge question:

Has your Head of Finance briefed members on the Council’s response to the Financial Resilience Index consultation?

# Institute of Fiscal Studies: Impact of ‘Fair Funding Review’

The IFS has published a paper that focuses on the issues arising in assessing the spending needs of different councils. The government’s ‘Fair Funding Review’ is aimed at designing a new system for allocating funding between councils. It will update and improve methods for estimating councils’ differing abilities to raise revenues and their differing spending needs. The government is looking for the new system to be simple and transparent, but at the same time robust and evidence based.

## Accounting for councils’ spending needs

The IFS note that the Review is seeking a less subjective and more transparent approach which is focused on the relationship between spending and needs indicators. However, like any funding system, there will be limitations, for example, any attempt to assess needs will be affected by the MHCLG’s funding policies adopted in the year of data used to estimate the spending needs formula. A key consideration will be the inherently subjective nature of ‘spending needs’ and ‘needs indicators’, and how this will be dealt with under any new funding approach. Whilst no assessment of spending needs can be truly objective, the IFS state it can and should be evidence based.

The IFS also note that transparency will be critical, particularly in relation to the impact that different choices will have for different councils, such as the year of data used and the needs indicators selected. These differentiating factors and their consequences will need to be understood and debated.

## Accounting for councils’ revenues

The biggest source of locally-raised revenue for councils is and will continue to be council tax. However, there is significant variation between councils in the amount of council tax raised per person. The IFS identify that a key decision for the Fair Funding Review is the extent to which tax bases or actual revenues should be used for determining funding levels going forward.

Councils also raise significant sums of money from levying fees and charges, although this varies dramatically across the country. The IFS note that it is difficult to take account of these differences in a new funding system as there is no well-defined measure of revenue raising capacity from sales, fees and charges, unlike council tax where the tax base can be used.

## The overall system: redistribution, incentives and transparency

The IFS also identify that an important policy decision for the new system is the extent to which it prioritises redistribution between councils, compared to financial incentives for councils to improve their own socio-economic lot. A system that fully and immediately equalises for differences in assessed spending needs and revenue-raising capacity will help ensure different councils can provide similar standards of public services. However, it would provide little financial incentive for councils to tackle the drivers of spending needs and boost local economics and tax bases.

Further detail on the impact of the fair funding review can be found in the full report <https://www.ifs.org.uk/uploads/publications/comms/R148.pdf>.
