

## Individual maps of sites submitted and assessed as possible land allocations in the East Devon working draft local plan for consideration at: Strategic Planning Committee on 14 December 2021

This report shows sites, in more detail than in originally published maps, that are being considered by Strategic planning Committee and that have been assessed as part of the work on production of the working draft East Devon local plan. Each assessed site is shown separately in this report with the site boundaries shown, in most cases, being the boundary that was submitted to the District Council by land owners and or their agents. The boundaries should be regarded as indicative only of intended sites and the precision of boundary drawing varies greatly in terms of quality and accuracy in respect of following defined features, such as field boundaries, as shown on the base maps. In some cases the site boundary lines include or cut through land and properties that are not in the ownership or control of the land owner or agent making the submission. In such cases a pragmatic assumption needs to be made of the actual land area that is being promoted for development and as such has been assessed. Third party owned land should be dismissed and discounted from consideration.
