

Exmouth BMP Aims and Scope (Revised following Group debate on 26/10/21)

Scope:

1. Physical project extents to be defined by Smeaton Wall to the West to Orcombe Point to the East. (Same as existing BMP)
2. Study extents to include physical project extent area as well as the coastline both East and West of the physical project area and including the Exe Estuary.
3. BMP is to manage the long term physical nature of the beach, not the management of the day to day running of the beach.

Aims:

- A. Treat the project as urgent
- B. Aim to look at reducing sand loss on the beach, and increasing if possible
- C. Maintain beach to protect sea wall
- D. Maintain/improve amenity of beach
- E. Carry out all aims in an integrated and sustainable way, with regard to the climate and ecological emergency.
