Public Health Implementation Plan 2022/23

Report summary:

Each year our Public Health Implementation Plan summarises how we intend to meet the targets and aspirations of our Public Health Strategic Plan. Our Implementation Plan shows our commitment to activities across our council service plans, all aiming to make a positive difference to people's physical health and mental wellbeing across East Devon.

We recognise the need to 'SMARTen' some of the services' objectives for monitoring purposes; we will encourage Service Leads to introduce this discipline going forward – via our Public Health Steering Group and at other senior management team-level opportunities.

Is the proposed decision in accordance with:

Budget Yes No

Policy Framework Yes No

Recommendation:

To recognise the contribution made by our services to health and wellbeing through activities identified annually which underpin our Public Health Strategic Plan.

Reason for recommendation:

To help ensure that staff and members across the council are aware of the annual Implementation Plan, helping them to make the best possible use of our resources to enable activities which support health and wellbeing across East Devon.

Officer: Helen Wharam, Public Health Project Officer, HWharam@eastdevon.gov.uk 01395 571651

Portfolio(s) (check which apply):

- Climate Action and Emergency Response
- Coast, Country and Environment
- Council and Corporate Co-ordination
- Democracy, Transparency and Communications
- Economy and Assets
- Finance
- Strategic Planning
- Sustainable Homes and Communities
- Tourism, Sports, Leisure and Culture

Equalities impact High Impact

This Implementation Plan identifies activities designed to make a positive difference to everyone's physical health and mental wellbeing across East Devon. In a fully multi-disciplinary approach, teams across the council are embracing opportunities to combat inequalities and encourage/support healthier lifestyles.

Climate change Low Impact

Risk: Low Risk;

Report in full

[Public Health Implementation Plan 2022/23](#)

1. Data from Public Health England, the NHS, and Devon County Council provides a mechanism for evidencing, prioritising and monitoring health and wellbeing issues and reducing health inequalities across our district.
 2. We use this evidence-based data to guide and plan our public health work within the council and with our partners. Our public health activities align with national, regional and local indicators and priorities.
 3. East Devon's [Public Health Strategic Plan 2019-23](#) identifies three overarching aims which highlight differences in life expectancy and healthy life expectancy between communities:
 - i. To help more people to be healthy and stay healthy
 - ii. To enhance self-care and support community resilience
 - iii. To integrate and improve support for people in their homes.
 4. Teams across the council are working together to fulfil the activities summarised in this Implementation Plan. Each part of the council can play a part in a joined-up approach to service delivery supporting these three health and wellbeing priorities. Our Implementation Plan for 2022/23 is based upon [activities stated in Service Plans](#).
 5. Alongside these stated activities, we will continue to respond to any Covid-19 requirements if and as these arise. Whenever possible we will also continue to articulate the links between health, poverty and climate: many activities good for an individual's health are also good for the planet, for example active travel and diet-considerations.
-

Financial implications:

Details have been taken from individual service plans which have been aligned to approved council budgets.

Legal implications:

The report does not raise any specific legal implications. Individual actions within the implementation plan may be subject to further reporting and more detailed consideration.
