<b>Summary of key points</b>	<b>Prevention of Crime &amp; Disorder</b> Having lived in the area for several years I question if Police resources are adequate to deal with any “prevention” measures.  <b>Public Safety</b> With reference to the above Public Safety should not be a “reaction” to any incidents that endangers or increases local resident’s safety.  <b>Prevention of Public Nuisance</b> I feel staff would be unable to control behaviour beyond the premises to the extent that attempting such action would further increase the nuisance aspect. ## APPENDIX H

	<p><b>Protection of Children from Harm</b> I fail to see that training of staff will give them sufficient knowledge or be vigilant enough to determine under age or proxy purchasing.</p>

<b>Summary of key points</b>	<p><b>Prevention of Crime &amp; Disorder</b> As per my comments in point 3.</p> <p><b>Public Safety</b> There is not enough Police Resource in the town to prevent potential issues created by extremely late night purchasing of alcohol in the street.</p> <p><b>Prevention of Public Nuisance</b> I don't believe the staff working in the shop will have any powers or authority to stop groups of youths congregating outside the shop! I am also struggling to understand who will require to purchase alcohol at 2 am, who are not already inebriated!</p> <p><b>Protection of Children from Harm</b> I am not convinced staff will be vigilant enough to prevent either under age purchases <u>or</u> proxy purchasing, regardless of the "paper trail" steps and "training".</p>
