Dear Mr Przyborowski

I am preparing a report for the Licensing & Enforcement Sub Committee hearing on Wednesday 21st February 2024 when they will consider your application to licence vehicle registration WJ23 PVF as a hackney carriage vehicle.

To provide the Sub Committee with as much relevant information as possible when considering your vehicle, please can I ask if you can contact the garage that carried out the vehicle MOT (Quayside MOT and Tyre) and ask them the following questions:

- We note that the MOT certificate states the vehicle category as N1 but please could they confirm whether a class 4 or class 7 MOT was carried out on the vehicle?

CLASS 4 MOT TEST CARRIED OUT Dave Pearson

- If the MOT was carried out based on the vehicle being an N1 type vehicle, please could the MOT garage confirm whether the same checks were carried out as would apply to an M1 passenger vehicle?

TESTS ARE NOT CARRIED OUT ON EURO CLASSES THE TEST IS THE SAME. POZ

If the MOT garage are able to confirm this by email (either directly to ourselves at this email address or to yourself to be forwarded on to us) this would be very helpful for the report.

M2 and N2

[redacted]

If you were able to ask the garage to do this tomorrow, I can include it in the report before it is published. You will be sent an invitation to attend the Sub Committee hearing and a full copy of the report in due course.

Many thanks and kind regards
