Progress at March 2024	04
Sector Update	05

The contents of this report relate only to the matters which have come to our attention, which we believe need to be reported to you as part of our audit planning process. It is not a comprehensive record of all the relevant matters, which may be subject to change, and in particular we cannot be held responsible to you for reporting all of the risks which may affect the Council or all weaknesses in your internal controls. This report has been prepared solely for your benefit and should not be quoted in whole or in part without our prior written consent. We do not accept any responsibility for any loss occasioned to any third party acting or refraining from acting on the basis of the content of this report, as this report was not prepared for, nor intended for, any other purpose.

Grant Thornton UK LLP is a limited liability partnership registered in England and Wales: No.OC307742. Registered office: 30 Finsbury Square, London, EC2A 1AG. A list of members is available from our registered office. Grant Thornton UK LLP is authorised and regulated by the Financial Conduct Authority. Grant Thornton UK LLP is a member firm of Grant Thornton International Ltd (GTIL). GTIL and the member firms are not a worldwide partnership. Services are delivered by the member firms. GTIL and its member firms are not agents of, and do not obligate, one another and are not liable for one another's acts or omissions.

Introduction

This paper provides the Audit and Governance Committee with a report on progress in delivering our responsibilities as your external auditors.

The paper also includes a summary of emerging national issues and developments that may be relevant to you as a local authority.

Members of the Audit and Standards Committee can find further useful material on our website, where we have a section dedicated to our work in the public sector. Here you can download copies of our publications:

<https://www.grantthornton.co.uk/industries/public-sector/local-government/>

If you would like further information on any items in this briefing, or would like to register with Grant Thornton to receive regular email updates on issues that are of interest to you, please contact your Engagement Lead.

Progress at March 2024

Financial Statements Audit

We have been discussing the impact of the Council's outstanding financial statements audits for the 2021/22 and 2022/23 financial years with management against the backdrop of national "backstop" measures proposed by the Department for Levelling Up, Housing and Communities (DLUHC). More information on the backstop proposals can be found on page 7.

Over 700 Local Government audit opinions remain outstanding nationally and the DLUHC proposals seek to address this backlog of audits.

In February 2024, we wrote to the Section 151 Officer to confirm that, in our view, it would not be possible to complete both the 2021/22 and 2022/23 financial statements audits by the proposed backstop date at the end of September 2024. As such, we anticipate that backstop disclaimer opinions will be issued for these financial years based on the information available to date and we discussed and agreed that it would be more beneficial to focus on the audit of the Council's 2023/24 financial statements.

The Council has yet to publish draft 2022/23 financial statements and will need to do so in sufficient time to allow the public inspection period to be undertaken.

We anticipate bringing our 2023/24 audit plan to the next Audit & Governance Committee.

Value for Money

Our 2022/23 Auditor's Annual Report is included as a separate agenda item. Our work on 2023/24 value for money audit reviews will start later in the calendar year.

Sector Update

Authorities continue to try to achieve greater efficiency in the delivery of public services, whilst facing challenges to address rising demand, ongoing budget pressures and social inequality.

Our sector update provides you with an up-to-date summary of emerging national issues and developments to support you. We show the current estimated financial trajectory of the sector and we cover areas which may have an impact on your organisation, the wider local government sector and the public sector as a whole. Links are provided to the detailed report/briefing to allow you to delve further and find out more.

Our public sector team at Grant Thornton also undertake research on service and technical issues. We will bring you the latest research publications in this update. We also include areas of potential interest to start conversations within the organisation and with audit committee members, as well as any accounting and regulatory updates.

The financial trajectory of the sector

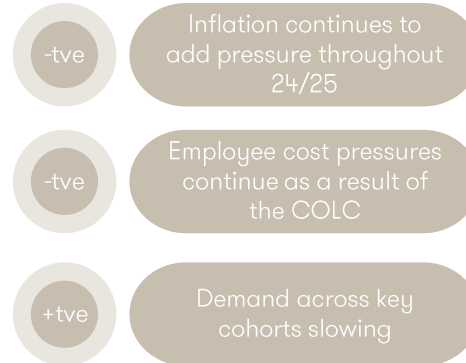

This is taken from the Grant Thornton/CIPFA Financial Foresight model, which provides long-term forecasts (revenue income and expenditure) for all councils in England. These forecasts are based on multiple assumptions relating to financial, demographic and economic factors. Councils at risk are defined by the level of usable reserves being less than 5% of net revenue expenditure.

The year at risk graph on the left represents the most recent update of the assumptions including the impact of the Autumn Statement and draft 2024/25 finance settlement. The graph on the right provides the position before this most recent update. This highlights that the year at risk for many councils has moved forward to 2024/25. The graph at the bottom of the page highlights the forecast depletion of reserves nationally, as councils manage ongoing financial pressures.

Addressing the delay in local audit

Nationally there have been significant delays in the completion of audit work and the issuing of audit opinions across the local government sector. Only 12% of local government bodies had received audit opinions in time to publish their 2021/22 accounts by the extended deadline of 30 November 2022. There has not been a significant improvement since, and the situation remains challenging. We at Grant Thornton have a strong desire and a firm commitment to complete as many audits as soon as possible and to address the backlog of unsigned opinions.

Over the course of the last year, Grant Thornton has been working constructively with DLUHC, the FRC and the other audit firms to identify ways of rectifying the challenges which have been faced by our sector, and we recognise the difficulties these backlogs have caused authorities across the country. We have also published a report setting out our consideration of the issues behind the delays and our thoughts on how these could be mitigated: [About time?: key challenges in local audit accounting](#).

Since 2019 Grant Thornton have increased our public sector audit team from 340 people to circa 470 which reflects both the additional work required by new accounting and auditing standards as well as the NAO Code of Practice requirements on value for money.

On 8th February 2024, DLUHC and the NAO both issued consultations on measures to address the delay in local audit. Consultations are open until 7th March 2024 and relate to:

- DLUHC - changes to the Accounts and Audit Regulations 2015 to introduce a backstop date of 30 September 2024 for the publication of audited accounts up to and including 2022/23, and a series of future backstop dates covering the remainder of the PSAA appointment period; and

- NAO - changes to the Code of Audit Practice to support auditors to meet backstop dates and promote more timely reporting of their work on value for money arrangements.

The FRC, as shadow system leader, is facilitating the consultations. CIPFA/LASAAC are expected to go live on their proposals for time limited changes to the Financial Reporting Code for English bodies shortly.

Grant Thornton report: preventing failure in local government

Grant Thornton's December 2023 report Preventing Failure in Local Government offers prescriptions for remedies to support better health across the local government sector. The report looks at the opportunities that councils and their key internal and external players have to prevent failure, noting that the chain (of good governance) is only as strong as its weakest link.

The Audit Committee is listed as one of the key internal bodies with a role to play in preventing failure, along with the Executive, the Overview and Scrutiny Committee and the golden triangle of Chief Executive Officer; Finance Director; and Monitoring Officer. Opportunities for the Audit and Governance Committee to make a difference surround:

- focusing on risk management alone (not having multiple roles);
- independence (having an independent chair and at least one independent member);
- specialist training and support for members of the committee;
- direction over internal audit (setting the standard for strategic risk focus and timeliness); and
- curiosity and asking the right questions.

Sharing the Auditor's Annual Report with full council is also listed as important. The challenge for Audit Committees will be not only to maximise their own opportunities to prevent failure, but knowing the right questions to ask about whether the Executive and other committees and the three key statutory officers are making the most of their opportunities as well.

For insight into effective questions to ask, read the full report from Grant Thornton here: [How can further local authority failures be prevented? \(grantthornton.co.uk\)](https://www.grantthornton.co.uk/how-can-further-local-authority-failures-be-prevented?)

Mitigating financial distress in Local Authorities

On 29th January 2024, a report by the Levelling Up, Housing and Communities Committee highlighted that in the last six years, eight local authorities have issued a section 114 notice, whereas none had done so in the eighteen years before that.

Income related issues were highlighted in the report around the below-inflation cap on increasing council tax rates (referendum thresholds) and formulaic weaknesses with the business rates retention scheme. Council tax especially was singled-out as regressive, long overdue for reform, and contributing to a disproportionately negative impact on funding levels in the most deprived areas of the country.

Expenditure related issues were listed in the report as surrounding social care; special educational needs and disabilities; and homelessness. The report highlighted that for children's social care, even the Competition and Markets Authority has recognised that the level of competition in the market is "not working as well as it should be" at maintaining prices at reasonable levels for local authority purchasers.

The report shows that nearly one in five Leaders and Chief Executives of other local authorities who have not already issued a s114 notice do assess themselves as being at "tipping point" due to lack of funding.

Whilst most of the recommendations in the report are aimed at Government, there are some key takeaways for local authorities while they wait for any change that may come:

- have we set Council Tax at the highest level possible without a referendum? Future changes could see referendum thresholds increased or removed. Are Councils doing all they can now to maximise this source of income?
- are we collaborating as effectively as we can with other local authorities to influence market prices for the services we buy in?

For insight into effective questions that Audit Committees can ask, read the full report here [*Financial distress in local authorities \(parliament.uk\)](https://www.parliament.uk/publications/2024/1/financial-distress-in-local-authorities/)

Learning from the Office for Local Government

On 15th February 2024, the Secretary of State for Levelling up, Housing and Communities set out, in an open letter to the Chief Executive of Oflog, the strategic remit for Oflog for the financial years 2024 to 2027, and the Office's priorities for the financial year 2024/25. The priorities are to:

- inform;
- warn;
- support; and
- engage.

Using the new Local Authority data explorer tool (launched in July 2023), the Office can currently use metrics on waste management, planning, adult social care, roads, adult skills and corporate/ finance to compare any one authority with the English median, CIPFA nearest neighbours and trends over time. The Office is expected to develop a new early warning system to identify local authorities that are at risk of serious failure (but have not raised the alarm themselves) and to conduct 'early warning conversations' with local authorities at risk. It will be also be offering a programme of webinars to share best practice between local authorities, and to help improve performance, productivity and value for money.

Local Authorities and their members can familiarise themselves now with the data explorer metrics already publicly available.

For a full copy of the remit letter and for access to data explorer metrics for your Local Authority see here:

New workbook to support councillors in their work on community leadership

On 8th February 2024, the Local Government Association published a new workbook for Councillors, covering community leadership.

Effective community leadership matters because communities that are engaged tend to have happier, healthier people and lower levels of crime and anti-social behaviour. Declining voting and increased social detachments from local areas are also a concern. Councillors are in the unique position of being able to interface between citizens and the council and demonstrate directly what they have achieved for the people they represent.

The workbook shows that for effective community leadership, councillors need to:

- listen to and involve their local communities;
- build vision and direction;
- work effectively with partners;
- make things happen;
- stand up for communities;
- empower communities;
- be accountable; and
- use resources effectively.

With challenge questions; case studies; guidance, hints and tips; and a dedicated section for the opposition, the workbook makes for interesting reading for any councillor – new or already established.

Making the most of levelling-up funds to local government

In November 2023, the National Audit Office published its report on whether the Department for Levelling Up, Housing and Communities' levelling up funds are likely to deliver value for money. The three significant funds are the Towns Fund (Town Deals and Future High Streets Fund programmes); the Levelling Up Fund (local priorities with a visible impact); and the UK Shared Prosperity Fund (to increase life chances and build pride in place). Between them, these funds are worth up to £10.6 billion and aim to allocate £9.5 billion to local places to be spent by 31 March 2026. However, less than half of the monies given to local places across the three schemes by 31 March 2023 had been spent. Because under current arrangements the funds are time limited, there is a risk that some projects may never be started and others, in the haste to complete, may include sub-optimal decisions.

Many of the delay factors are beyond Local Authorities' control: Rising costs, skills shortages and supply issues in the construction industry. However, the report does highlight that there are things Local Authorities can do to help with unblocking.

For the full report and an insight into wider recommendations for the Department, see [*Levelling up funding to local government \(nao.org.uk\)](https://nao.org.uk)

£10.6bn	total amount announced through the Towns Fund, Levelling up Fund and UK Shared Prosperity Fund, to support the government's levelling-up agenda across the United Kingdom between 2020–21 and 2025–26
£9.5bn	the amount the Department for Levelling Up, Housing & Communities (DLUHC) has allocated to local places to be spent by 31 March 2026
£2.0bn	the amount DLUHC has given to local places so far across the three funds at 31 March 2023
£0.9bn	the amount spent by local places at 31 March 2023
