Question	Question from	Question	Response
1	Cllr Mike Goodman	<p>Question to Portfolio Holder for Finance</p> <p>Having been part of the overview and scrutiny looking at this year's budget, to help the public to understand the scale of the financial challenges facing EDDC. Could the portfolio holder for Finance explain the consequences for EDDC if LGR did not happen in 2027 for years 2028 and 2029.</p>	<p>Portfolio Holder for Finance</p> <p>This Council's future budget position beyond 2026/27 was given in the draft budget report to Cabinet on 7th January 2026. This gave an estimated budget deficit in 2027/28 of £2.8m and, if LGR was not implemented as planned in April 2028, then a further deficit of £4m in 2028/29.</p> <p>Since then, two factors have changed those numbers:</p> <ol style="list-style-type: none"> 1. Overview, Scrutiny and Cabinet are

recommending to Council in the 2026/27 budget additional expenditure of £0.3m (special items). These items are recurring costs and add to the estimated budget deficit going forward.

2. The Final Local Government Finance Settlement published on 9th February has resulted in a further reduction in our funding compared with the Provisional Settlement by £1.2m for 2027/28 and 2028/29.

Taking these changes gives us a revised estimated budget deficit in 2027/28 of £4.3m and in 2028/29 £5.5m.

Again, as outlined in the 7th January Budget Report aligned reserves against these deficits are remaining sums in the order of £5.3m.

Therefore, allowing the Council to retain existing services and budget spends for the one year remaining in accordance with the existing government timetable. If extended to 2028/29, we would need to find savings in the order of £4.5m requiring a significant reduction in service spending to be

			<p>implemented for 2028/29.</p> <p>These are high level estimates, and a revised Medium Term Financial Strategy will be presented for Members consideration in July 2026 when more certainty is likely on LGR. This Council has an excellent record of planning and meeting budgetary challenges, however the changes to the government funding formula has had a significant effect on our finances to a degree not seen in recent years.</p>
2	Cllr Mike Goodman	<p>Question to Leader of Council Can the Leader explain why he is calling for the postponement of LGR in Devon, and does he realise the financial and service impact on East Devon District Council this could have.</p>	<p>Leader of Council</p> <ul style="list-style-type: none"> • I thank Cllr Goodman for his question. At East Devon I have consistently thanked our officers and the PH Cllr Loudoun, and all lead members and officers across Devon, for their work in meeting the demands of government re LGR. I have also signalled that we would enter a “political” phase. We now have. • LGR was not included in Labour’s July 2024 manifesto, while Devolution through Strategic Mayoral Authorities or Foundation Level was. • Unfortunately for

			<p>political reasons the then Secretary of State at MHCLG decided to force complete local government reorganisation onto the agenda.</p> <ul style="list-style-type: none"> • We can be proud that as members and officers we have repeatedly met government's tight deadlines for i) initial submissions ii) final submissions. The sheer scale of work this has taken cannot be overstated • Throughout that period, MHCLG has repeatedly changed guidance eg around population numbers for new unitaries. At first, 500k or over, but then a loophole for Labour run city areas of 300k or more. • It also became clear through engagement with central government that their insistence on breaking up the current district/county structures was not about savings or efficiency. Baroness Taylor confirmed that the Treasury does not expect that. It is about a political wish to dismantle "Shire County"

			<p>authorities which they fear are a traditional Conservative party powerbase.</p> <ul style="list-style-type: none">• For many in local government, the final straw in what has always appeared a hurried, under-resourced and ill-considered project for LGR, was the cancellation of local elections, followed by their reinstatement after the Electoral Commission stated that there was no legal basis for cancellation. Trust in due process is at an all-time low.• It is worth noting in passing that in early 2025 the then Conservative Devon County was also unsuccessful, as Exeter has been this year, in having elections cancelled in their political self-interest.• The first authority to express its outrage last week was the Conservative run Norfolk County Council. They have stated that they will no longer co-operate with LGR.• This was followed at the end of the week by Labour Basildon making the same pledge,

			<p>which brings into question whether wider Essex too can deliver.</p> <ul style="list-style-type: none">• It is clear that the LGR project has lost the confidence of most of the LG sector. In particular, the current timelines do not include sufficient time for Boundary Commission reviews and consultations.• Moreover, every district in Devon is involved in its own major projects which members were elected and officers employed to deliver. The resource burden and distraction has been immense since the end of 2024 when the government first brought LGR onto the agenda.• Due consultations continue as is appropriate and government promises a choice in July• On all prior evidence and experience of this process, even though it is becoming obvious that May 2027 is neither realistic nor in the interest of good local government in Devon, if there is to be a delay it will be left to the

			<p>eleventh hour, perhaps in the Autumn, to announce it.</p> <ul style="list-style-type: none"> • Leaders are discussing this week at a political level if there is consensus to write to MHCLG a) supporting ongoing rationalisation of services across Devon especially through future shared services b) acknowledging the possibilities of a Strategic Mayoral Authority as per the manifesto, and the possibility of delivering that through the Combined County Authority if Plymouth join the CCA c) that in the leaders' assessment, the timescales are not realistic, and request that the SoS decide as soon as possible if there is to be a delay. • Regarding our own medium-term financial plan, the PH for Finance has provided the answer at an earlier question. In the event the SoS was minded to postpone by a year, it is likely that provision would be made tbc • At all times, it is the responsibility of the Devon

3	Cllr Mike Goodman	<p>Question to Leader of Council In February 2025 the leader proposed a motion regarding the condition of our highways, this included a number of suggestions and some members that our roads were poor. Since then we have had ten months of the Lib Dems in power does the Leader believe our roads have improved. Motions Report.2.Highways.pdf</p>	<p>Leader of Council</p> <p>I thank Cllr Goodman for his constructive question. Clearly, during the ten months that the Liberal Democrats have been in power, the Highways team has been operating under a budget set by the previous (Conservative) administration . This has presented a number of challenges, not least because there was historically a reluctance to invest more capital or revenue funding into the department. This, coupled with poor central government funding, has seen a situation of unmanaged decline develop over some years. Despite the clear and obvious fiscal challenges presented, some progress has been made. The pothole trial (which saw non-safety defects repaired at the same time as reported safety defects within a defined area) was run in two divisions and was generally held to be a success – the scheme will be extended across a number of divisions in the finer months this year, which will include at least one East Devon Division. The road warden scheme, which has over 120</p>

			<p>parishes as active users, is being extended through the Community Protocol Scheme, which gives town and parish councils better access to service delivery on projects they (the Town or Parish) wish to expedite and are happy to finance.</p> <p>At our recent budget meeting, the Liberal Democrat Administration, supported by all the other main parties, agreed an extra of 5.7% across the Climate Change, Environment and transport Department as a whole and an extra £19million specifically for highways this year, (£4million for revenue spending, £15 million capital) with an extra £10 million capital each year for the next 4 years. As such, it might be a fairer test to repeat this question in 12 months time, at which point the administration at DCC will have had the opportunity to prove their budget.</p>

Follow up questions:

Question 1:

Councillor Mike Goodman asked the Portfolio Holder for Finance that if LGR was delayed what was the impact on the Councils finances and services likely to be. In response the Portfolio Holder for Finance confirmed that the current Medium Term Plan was prepared with LGR in mind and that a written response would follow.

Question 2:

Councillor Mike Goodman asked the Leader of Council that if LGR was delayed was this likely to have a significant impact on East Devon and its residents. The Leader commented that the Secretary of State had indicated that local government reorganisation was proceeding in line with the current timetable. The Leader referred to the original response which set details in full. The Leader of Council further commented

that Leaders across Devon would be writing to the Secretary of State highlighting that constructive work was underway which would see all authorities across Devon working together on a range of services. The Leader confirmed that the current Medium Term Financial Plan had been prepared in light of LGR and that funding shortfalls would need to be addressed by Government if they delayed the current process of reorganisation in Devon,

Question 3:

Councillor Mike Goodman asked how many road schemes had been delayed or stopped in Devon. The Leader of Council responded that this matter should be addressed to the Portfolio Holder for Highways at Devon District Council.

103 **Motion on Notice: Recognising and Protecting the Rights of Rivers in East Devon**

The Council considered a Motion on Notice - Recognising and Protecting the Rights of Rivers in East Devon.

The motion was proposed by Councillor Paula Fernley and seconded by Councillor Jess Bailey. The supporters of the motion included Councillors Paul Arnott, Charlotte Fitzgerald, Geoff Jung, Steve Hunt, Marianne Rixson, Sarah Jackson, Paul Hayward, Alasdair Bruce, Joe Whibley, Tim Dumper, Ian Barlow, Olly Davey, Anne Hall, Fabian King, Duncan Mackinder, Steve Hunt, Richard Jefferies and Bethany Collins.

In speaking to the motion Councillor Fernley requested that the Council notes that: East Devon is home to a network of rivers and streams — including the Axe, Coly, Otter, Sid, Exe, Clyst, Yarty, Lym and their tributaries, which are central to the district's ecology, landscape character, cultural heritage and community wellbeing. These waterways support wildlife, livelihoods, recreation, food production and the local economy.

Across East Devon and nationally, rivers are under increasing pressure from sewage pollution, agricultural runoff, over-abstraction, habitat loss and climate change. These pressures threaten biodiversity, public health, climate resilience and the long-term sustainability of our river catchments.

Councillor Fernley also called on the Council to safeguard these natural assets for current and future generations, East Devon District Council should demonstrate leadership by recognising the intrinsic value, ecological importance of rivers and they have rights, drawing inspiration from the principles set out in the Universal Declaration of the Rights of Rivers, including:

- the right to flow naturally and seasonally;
- the right to perform essential ecological functions;
- the right to be free from pollution;
- the right to be sustained by, and sustain, healthy freshwater sources;
- the right to support native biodiversity and ecological integrity; and
- the right to recovery and regeneration from environmental harm.

Councillor Fernley requested that the Council therefore resolves to:

1. Acknowledge the intrinsic ecological value of all rivers and streams within the jurisdiction of East Devon District Council, and that they have rights, including the Axe, Coly, Otter, Sid, Exe, Clyst, Yarty, Lym and their tributaries.
2. Affirm the Council's commitment, through its planning and policy functions, to giving due weight to river protection, flood prevention, sustainable drainage (SuDS), nutrient

- neutrality, biodiversity net gain and green infrastructure, including through the emerging Local Plan and development management processes.
3. Note that river protection and restoration principles have been embedded within the emerging Local Plan as far as current legislation allows, and that these considerations will continue to inform relevant planning decisions.
 4. Continue to work in partnership with relevant national and regional bodies, including the Environment Agency, Natural England, DEFRA, Ofwat and South West Water, to formally communicate concerns about river health and to encourage stronger protections, effective enforcement and catchment-based approaches. As well as asking our MPs to put pressure on Government.
 5. Recognise the value of citizen science and community-led river monitoring initiatives and commit to signposting communities to appropriate regulatory bodies and partners where concerns about river quality arise.
 6. Encourage collaboration with community groups, NGO's, catchment partnerships and other stakeholders, where this aligns with existing Council priorities and resources, to share information, promote good practice and signpost relevant support.
 7. Promote public awareness and engagement, within existing resources, on the importance of rivers to East Devon's natural environment, climate resilience and cultural heritage.
 8. Request that the Environment Agency, working with local partners, publishes an annual "State of East Devon Rivers" report to improve transparency, understanding and accountability for river condition and management.

In seconding the motion Councillor Jess Bailey commented that it was important that there was an action plan in place to support the requests set out in the motion.

Having been duly moved and seconded the motion on notice was put to the vote and carried by a majority show of hands.

RESOLVED:

That Council:

1. Acknowledge the intrinsic ecological value of all rivers and streams within the jurisdiction of East Devon District Council, and that they have rights, including the Axe, Coly, Otter, Sid, Exe, Clyst, Lym and their tributaries.

4. Continue to work in partnership with relevant national and regional bodies, including the Environment Agency, Natural England, DEFRA, Ofwat and South West Water, to formally communicate concerns about river health and to encourage stronger protections, effective enforcement and catchment-based approaches. 5. Recognise the value of citizen science and community-led river monitoring initiatives, and commit to signposting communities to appropriate regulatory bodies and partners where concerns about river quality arise.
