	Woodlands and Hedgerows	<p>B. Development proposals which could result in loss or damage to aged or veteran trees will not be supported.</p> <p>C. New development within the proximity of existing mature trees will be expected to have a tree protection plan in place before any development commences, prepared in accordance with British Standard 5837:2012. This will detail tree protection strategies to be employed during construction. An arboricultural method statement will also be required to cover any proposed works to trees or other works within their root protection areas.</p> <p>D. Where it is unavoidable, development proposals must provide for appropriate replacement planting on the site, or as close as possible to it, together with a management plan for the ongoing care and maintenance of that planting. Such replacement planting should use appropriate native species with an expected mature size similar to those removed and be in the ratio of three trees for the loss of a large tree, two for a medium sized tree and one for a small tree.</p> <p>E. The areas of woodland delineated on Map 4 are regarded as important natural features. Any development proposals that would result in the loss, damage or deterioration of these areas will be resisted.</p>
Policy Farr 4	Extensions to Existing Dwellings	<p>Proposed extensions and/or alterations to dwellings beyond what is allowed by way of permitted development rights should be:</p> <p style="padding-left: 40px;">a) appropriate in scale and massing to the existing building;</p> <p style="padding-left: 40px;">b) constructed of complementary materials; and</p> <p style="padding-left: 40px;">c) of a design which reflects and enhances the character and appearance of the existing building.</p> <p>New roofs should be pitched unless this is out of character with the existing building.</p>
